

IDX batteries on site and in action

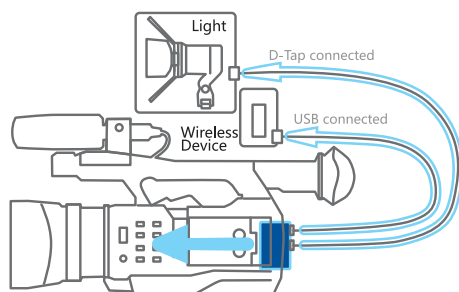

Analyzing applications and listening to users' needs is how IDX creates batteries that benefit you.

Example of a One man ENG operation

Devoted to keeping things light weight!

SB-U Type Battery Series
SB-U95/SB-U50
Li-ion battery for SONY BPU type camcorders

Wants multiple power outputs on the battery
→SB-U series (Winter release)
: equipped with D-TAP and USB DC outputs

Wants a compact and light weight charger
→D-TAP Charger (Winter release)
: pocket size

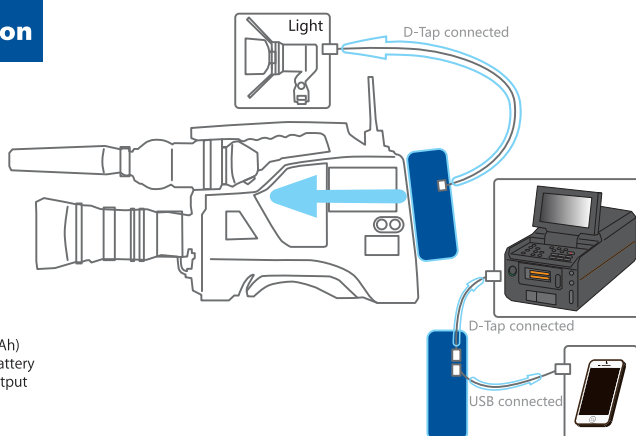

Example of a small crew ENG operation

To achieve both light weight and high capacity/power for shooting and rough editing!

DUO-C95: 93Wh (14.4V, 6.4Ah)
Compact, Li-ion V-Mount Battery
with 2x D-Taps & 1x USB output

Would like a compact and high power battery
→DUO-C95 (June release)

Needs power for various equipment
→DUO Series with dual D-Taps and USB outputs.

Would like a compact and light weight charger as well!
→VL-2X 2 channel sequential
charger with 4pin XLR DC output
(Available Now).

Example of TV and cinema production

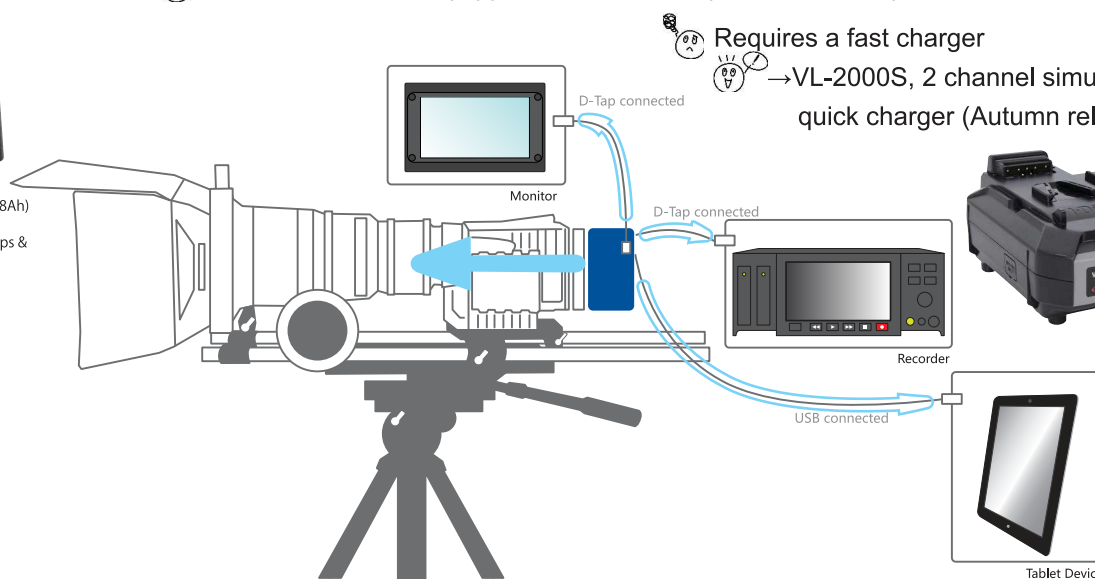

A lot of time and equipment is required for high-end content production

Requires long operation time and high load capability
→DUO-C190 (185Wh, 11A discharge, June release)

Requires multiple outputs to power many devices
→DUO series are equipped with dual D-Taps and USB outputs.

DUO-C190: 185Wh (14.4V, 12.8Ah)
Compact, High Load Li-ion
V-Mount Battery with 2x D-Taps &
1x USB output

Requires a fast charger
→VL-2000S, 2 channel simultaneous
quick charger (Autumn release).
