

DUO Series Batteries

IDX offers highly reliable batteries that professionals seek.

DUO-C190 for Digital Cinema Production

- Restricted for aircraft carry-on baggage BUT
- Higher capacity = long operation time
- 30% capacity increase / 0% size and weight increase from DUO-150

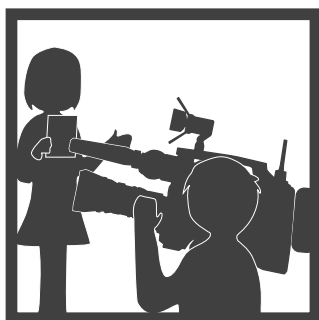

DUO-150 for Drama & TV Production

- Limited to 2 batteries for aircraft carry-on baggage
- Industry standard battery
- Globally accepted by a large number of users

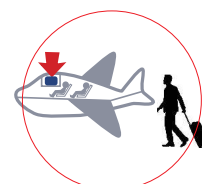

Spares are limited to two per person.

DUO-C95 for ENG Operations

- Aircraft carryon is ok as long as weight is within airliner carryon limits
- More Compact
- 30% more compact with same capacity compared to DUO-95/CUE-D95

DUO-C190 and DUO-C95 utilize advanced cells with high volumetric energy density.

	Capacity	Max. Discharge Current	Dimensions	Weight	Li-ion Transportation*	External output connectors	Application sample
NEW DUO-C190	185Wh	11A	97(W)×146(H)×59(D)mm	1070g approx.			for Digital Cinema Production
DUO-150	146Wh	10A	97(W)×146(H)×59(D)mm	1050g approx.			for Drama & TV Production
NEW DUO-C95	93Wh	6.3A	97(W)×146(H)×39(D)mm	620g approx.			for ENG Operations

*Passenger Aircraft- Carry-on Baggage
