8SINN MONITOR HOLDER COLD SHOES MOUNT

8Sinn Monitor Holder Cold Shoes Mount enables the possibility of mounting the 8Sinn Monitor Holder on a cold shoe.

This adapter retains all the properties of primary released Monitor Holder.

Solution prepared for those, who prefer lower rig`s profiles.

OVERVIEW

Components of 8Sinn Monitor Holder Cold Shoes Mount are:

- two movable arms,

- regulation / tightening knob,
- one thumb screw for mounting the monitor on the holder.

The following version of Monitor Holder provides the cameraman with very easy mounting solution, as it doesn't require any mounting screws or tools for attachment.

ADJUSTABILITY

The angle of the monitor support arm can be adjusted by freely accessible regulating knob.

It has over 180 degrees regulation range.

COMPATIBILITY

Holder is attached to the monitor by ¼" screw so that mounting can be done without any tools.

8Sinn Monitor Holder is an universal accessory, created to work with all monitors equipped with 1/4" threaded mounting opening.

8Sinn Monitor Holder Cold Shoe Mount is available in two types.

First type is compatible with 8Sinn Top Handle Scorpio only, regarding the differences in its cold shoe structure.

Second type is suitable for all other cold shoes, like the ones on Top Handle Pro, Top Handle Basic and cold shoes on every 8Sinn's cage. Second type is also suitable for other manufacturers accessories.

Be sure to choose the right adapter.

Set includes:

- 1pcs 8Sinn Monitor Holder Cold Shoes Mount
