Description du produit :

DUAL SIDE GRIP

8Sinn Dual Side Grip is comfortable and perfectly suited to be a part of complex shoulder rigs constructed on VCT base plates equipped with Arri Rosette mounting point.

One grip can be used on both sides, thanks to the switchable Arri Rosette attachment.

Handle is set in place by tightening the thumb screw - no tools needed.

ERGONOMICS AND FUNCTIONALITY

Ergonomic and lightweight construction, are two essential features for the handle grips design.

Handle consists of two elements:

- grip part - high quality, durable composite material,
- attachment part - aluminium Arri Rosette adapter.

To create full shoulder rig, use the following products:

- 8Sinn VCT Universal Shoulder Base Plate
- 8Sinn Side Arm for Shoulder Rigs
- 8Sinn Dual Side Grip

Set includes:

- 1pcs 8Sinn Dual Side Grip

If you need two grips, make sure to choose the quantity in the upper section of this page.
