Description du produit :

8SINN 15MM ROD CLAMP WITH ARRI ROSETTES

This adapter will come in handy while constructing advanced shoulder rigs.

Adapter serves as an attachment point for side arms, often used in expanded camera setups.

Side arms can be attached to the VCT Shoulder Base Plate directly, however if the user wishes to have them attached further away from the center of the rig, this adapter will allow that.

Only the length of rods chosen by the user, can limit the range of adjusting.

Set includes:

- 1 pcs 8Sinn 15mm Rod Clamp with Arri Rosettes

Dimensions:

- Length: 106mm
- Height: 40mm
- Width: 32mm

Weight: 85g
