Description du produit :

8SINN SIDE ARM FOR SHOULDER RIGS

8Sinn Side Arm for Shoulder Rigs has been designed to complement the 8Sinn VCT Shoulder Base Plate.

Combining those two products and adding the 8Sinn Dual Side Grip, allow to create steadier and more versatile camera set.

REVERSIBLE EXTENSION ARM

One arm consists of two elements joined together by Arri Rosettes and thumb screws.

8Sinn Side Arm paired up with the 8Sinn Dual Side Grip has three rosette based joints, which grant you the angle adjustment.

Setting of the angles does not require tools.

Additionally, each arm is equipped with two mounting points 1/4" size.

Set includes:

- 1pcs 8Sinn Side Arm for Shoulder Rigs
