Description du produit :

Production kit for the for Sony PXW-FX9 camera. This kit combines the most popular Vocas accessories for this camera into a complete set for the most demanding cameraman. It features a 15 mm Universal Shoulder Base Plate (0350-2207-02) which allows the user to find the optimal balance for the camera on either tripod or when operating it on your shoulder.

The kit includes our H-cheese plate (0350-1365) which fits inside the original Sony top handle, giving you multiple extra connection points on top of your camera for 1/4" and 3/8" accessories.

It also comes with a viewfinder bracket (0700-0065) based on a NATO rail to prevent your viewfinder from tilting, resulting in a crooked horizon. The extender (0390-0030) and ergonomic wooden handgrip (0390-0104) give you a comfortable way to hold your camera while operating it on your shoulder.
