Description du produit :

A lightweight and compact solution for supporting tango camera tracks. The Lowpod has a 28mm lightpin fitting. The Lowpod weigh less than 2 kg and open up the construction area between 30 and 60 cm, ie below the lowest position of a double extendable 100-mm-Statives – a request of many users. Buy various video camera risers products like Euro Pipe (20cm), Extendable Riser (100mm), Mitchell Riser, Elemack Riser or lowpod at Prosup Professional Camera Support
