Description du produit :

Production kit for the for Sony FX6 camera. This kit combines the most popular Vocas accessories for this camera into a complete set for the most demanding cameraman. It features a 15 mm Universal Shoulder Base Plate (0350-2200) which allows the user to find the optimal balance for the camera on either tripod or when operating it on your shoulder.

The kit includes our cheese plate for Sony FX6 (0350-1376) which fits inside the original Sony top handle, giving you multiple extra connection points on top of your camera for 1/4" and 3/8" accessories. We have also added the side plate (0350-1377).

It also comes with a viewfinder bracket (0700-0100) based on a NATO rail to prevent your viewfinder from tilting, resulting in a crooked horizon. The handgrip extender (0390-0030) and ergonomic wooden handgrip (0830-0032-04) give you a comfortable way to hold your camera while operating it on your shoulder.
