Description du produit :

15 mm Tilting battery adapter plate including V-lock mount and cable for powering cameras with a 4 pin XLR power socket through V-lock batteries. The V-lock mount plate has a 10A fuse and 1x unregulated D-Tap. The length of the power cable is 35 cm. The kit consists of a V-lock mount plate (0370-0170) which is mounted on the tilting battery adapter plate for 15 mm rails (0370-0110), to provide a complete V-lock powering solution on 15 mm rails. An optional 19 mm adapter (0460-0650) is available to mount the tilting battery plate on 19 mm rails.
